Approved Source Protection Plan: CTC Source Protection Region

PREFACE

This document was prepared by staff at the CTC (Credit Valley-Toronto and Region-Central Lake Ontario) Source Protection Region. The policies have been developed by the Source Protection Committee (SPC). This Source Protection Plan was submitted jointly by the respective Source Protection Authorities (SPAs) to the Minister of the Environment and Climate Change and has received approval.

The objective of this document is to provide the approved policies that the CTC SPC has developed, which when implemented, are to protect existing and future municipal drinking water sources.

The policies contained within this document are approved. If you have any questions about this document or the CTC Source Protection Region, please contact staff at
